Green Fields, Golden Sands

An Other Cup

Y U S U F
Green Fields and Golden Sands
Are all I need; are all I want
Let the wind blow hard, I don't mind

A small house and an olive tree,
To keep and feed my family
Let the wind blow hard, I don't mind
One day we'll all realize, I'm not the only one

Just raise your eyes up and you'll be gone, to those

Green Fields and Golden Sands
That's all I need; that's all I want.

Music in Classrooms

- “Music is a lady that I still love because she gives me the air that I breathe.

- We need all sorts of nourishment. And music satisfies and nourishes the hunger within ourselves for connection and harmony.”

Yusuf Islam

Pecha-Kucha

PechaKucha Night was devised in Tokyo in February 2003 as an event for young designers to meet, network, and show their work in public. It has turned into a massive celebration, with events happening in hundreds of cities around the world, inspiring creatives worldwide. Drawing its name from the Japanese term for the sound of “chit chat”, it rests on a presentation format that is based on a simple idea: 20 images x 20 seconds. Its a format that makes presentations concise, and keeps things moving at a rapid pace.

Screen Monkey:

New Release - Version 3.4

This latest version of Screen Monkey continues to improve on what is already an extremely powerful and diverse platform for live multimedia. The capability of multi layered spaces has to be seen to be believed and gives you the power to create even more complex shows. We have also improved on a number of day to day features such as setting display profiles in pixels.

Watch a video on the new features in 3.4

Download V3.4 >>
Helpful to Wow!

- Screen Monkey allows you to seamlessly switch between different types of media and directly full screen them to a second monitor.
- It can work over the top of other programs and provides a control centre for anyone wishing to produce professional looking multimedia shows.
